## Calculated Expenses

| Student Status | Tuition and Fees | Books and Supplies | Living Expenses | Insurance | Misc. | 2011-2012 Calculated Expenses | 2012-2013 Estimated Expenses* |
|----------------|------------------|--------------------|-----------------|-----------|-------|-------------------------------|-------------------------------|
| DMin           | \$5,540          | \$300              | \$1500          | \$--      | \$--  | \$7,340                       | \$7,340                       |

Living Expenses refer to the cost associated with room and board for students.

\*You can expect the cost of living to increase on an average of 3% each year. Therefore, you will need to account for these amounts for the 2011-2013 academic year and 3 % more for subsequent years. Totals do not include transportation to and from the U.S., nor do they include the purchase/lease/maintenance of a vehicle.

For this section, first list all **2011-2012 Calculated Expenses** associated with your student status. Consult the chart above for the amounts calculated by Gordon-Conwell for the 2011-2012 academic year. Then, under **Available Funds**, indicate the amount(s) (in U.S. \$) available from the following source(s) to meet your expenses. Also, please indicate whether the money available to you is renewable for all subsequent years of study. **Please note that the Calculated Expenses provided above cannot be modified under any circumstances. Students are not permitted to revise any of these figures based on individual determination, projected financial need, or anticipated costs.**
