Papers should range in length from 3 to 5 pages and include a reference list written in APA style.

**READING:** Each faculty presenter will suggest several pertinent references which will assist the student reflecting on the subjects presented. Students are expected to read materials related to the topics presented in the lectures. A reading log should be kept showing the books read and the cumulative number of pages. Since this a one-half credit course, the reading requirement is 1000 pages. Books suggested by each lecturer are, whenever possible, available on reserve shelves. Students should pay particular attention to reading in areas with which they have less familiarity.
