Making Schedule Changes Using the CAMS Student Portal

Adding a Course

Check "Credit" to add a course to your schedule.

If you don't have the necessary prerequisites, you'll be stopped with a "PreReq" flag. Click the course title for full prerequisite information.

If you're already taking the course this semester, it'll say "Reg."

If the course is full, check "Waitlist" to add yourself to the waitlist.

Dropping a Course

Check "Drop."

If it's past the allowed drop date, you may still be allowed to withdraw, resulting in a "W" on your transcript.

To remove yourself from a waitlist, check the "Remove" box in your list of waitlisted courses.

Then click "Process Registration" when you're done.
