CO795: Fundamentals of Clinical Supervision

Instructors:

Maria L Boccia, Ph.D., D.Min.; AAMFT-Approved Supervisor  
LMFT, LPC, AASECT-certified sex therapist, ABCST-certified sex therapist

James W. Pruett, Ph.D.; D.Min. AAMFT-Approved Supervisor  
CCE-Approved Clinical Supervisor, CFBPPC, LPC, LMFT LPCS, LMFTS,  
AAPC Diplomate, CPSP Diplomate

Dates/Times:

July 9 – 17, 2012; Mon-Friday  
9:00-12:00 AM; 1:30-4:30 PM

Purpose:
This course provides an overview of the theory, research and practice of clinical supervision, and teaches the fundamentals of clinical supervision. It is designed to meet the instructional guidelines for marital and family therapy (MFT) supervision, AAPC and CPSP Diplomate, Licensed Professional Counselor Supervisor (LPCS), and Licensed Marriage and Family Therapist Supervisor (LMFTS). It does that through the interplay of three modalities of active learning: didactic presentation, reflective interaction, and the supervised experience of actual supervisory practice. Some assignments will be specific to the type supervisory credential the student is seeking.

This course has been pre-approved by the American Association for Marriage and Family Therapy (AAMFT) and provides the 30 CE hours for MFT Supervision courses necessary for the Approved Supervisor designation

For North Carolina LPC-S credentialing, this course provides 30 CE hrs toward the 45 hrs required for the LPCS. Alternatively, those seeking the LPC-S licensure may choose to enroll as a special student at GCTS and receive 3 transcripted graduate credits by taking this as a regular graduate school course.

Fees:

Special students taking this class as a transcripted graduate course will pay regular tuition rates for this course.

Those enrolling for the 30 hour CE course will pay as follows:  
$795.00 (if registered and paid on or before July 1st, 2012)  
$875.00 (if registered and paid after July 1st 2012)

One-day registrations will be available for $175 per day.
CE credit:

GCTS is an NBCC approved provider of continuing education. Certificates of completion will be provided to attendees.

To receive credit for this class as a transcripted graduate course, all appropriate assignments in the syllabus must be completed.

To receive credit for this class as the AAMFT approved Fundamentals of Supervision course, the attendee must attend all sessions, and must complete a philosophy of supervision paper, as outlined in the syllabus.
