Adult TB Risk Assessment and Screening Form
Instructions to Medical Providers

The purpose of the TB risk assessment and screening form is to identify persons with **increased risk for TB** who may require further testing and evaluation. Persons born in countries where TB is common are at increased risk for TB (especially, but not limited to those who arrived in the last 5 years).

The **TB Self-Assessment of TB Risk section** can be completed by the patient/client/guardian alone or with provider's assistance. The provider should review the information and discuss TB risks, symptoms, previous TB testing and treatment with the patient/client.

If the person with TB risk describes or exhibits symptoms suggestive of possible active TB:

- Isolate the patient/client immediately (if possible) and have the patient/client wear a mask.
- Refer the patient/client for prompt clinical evaluation including a chest x-ray. Ensure that the patient/client wears a mask during transport to the provider.
- Consult the Massachusetts Department of Public Health/Bureau of Infectious Disease/ Division of Global Populations and Infectious Disease Prevention at 617-983-6970.

If the person has a history of TB or TB risk, but has no symptoms suggestive of TB:

- Educate the patient/client about signs and symptoms of TB and should such symptoms develop, instruct them to seek medical follow-up.
- Consider testing the patient/client for TB infection or refer to primary care provider.
- Consult the Massachusetts Department of Public Health/Bureau of Infectious Disease, Division of Global Populations and Infectious Disease Prevention at 617-983-6970, if needed.

Resources

Information about TB evaluation, testing and treatment can be found at <http://www.cdc.gov/tb/> and <http://www.mass.gov/dph/cdc/tb>

Guideline on the use of Interferon-Gamma Release Assay can be found at <http://www.mass.gov/eohhs/gov/departments/dph/programs/id/tb/testing-screening/>

Cases of suspect active or confirmed cases of active TB and TB infection are reportable to the Massachusetts Department of Public Health per Chapter 105, Code of Massachusetts Regulations (CMR), Section 300.000: Reportable Diseases, Surveillance, and Isolation & Quarantine Requirements) <http://www.mass.gov/eohhs/gov/departments/dph/programs/id/epidemiology/rdiq/reporting-diseases-and-surveillance-information.html>
